NOTES TO FINANCIAL STATEMENTS

1. Summary of significant accounting policies

A. Accounting practices

The accompanying statutory financial statements of Aetna Health Inc. (a Michigan corporation) (the "Company"), indirectly a wholly-owned subsidiary of Aetna Inc. ("Aetna"), have been prepared in conformity with accounting practices prescribed or permitted by the Michigan Office of Financial and Insurance Services ("Michigan Department") ("Michigan Accounting Practices"). The Michigan Department recognizes only statutory accounting practices prescribed or permitted by the State of Michigan for determining and reporting the financial condition and results of operations of an insurance company, which include accounting practices and procedures adopted by the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP"). The Company's net income and capital and surplus as stated on a NAIC SAP basis and on the basis of practices prescribed or permitted by the State of Michigan were the same as of and for the years ended December 31, 2011 and 2010.

Michigan Accounting Practices vary from U.S. generally accepted accounting principles ("GAAP"). The primary differences include:

- Certain assets, designated as nonadmitted assets (in part, uncollected premiums which are nonadmitted in accordance with Statements of Statutory Accounting Principles ("SSAP") No. 6, Uncollected Premium Balances, Bills Receivable for Premiums, and Amounts Due From Agents and Brokers) are not recorded as assets, but are charged to surplus. Thus, nonadmitting uncollected premiums eliminates the need for a separate allowance for doubtful accounts which is utilized under GAAP;
- Bonds are recorded at amortized cost except for those with an NAIC designation of 3 through 6, which are
 reported at the lower of amortized cost or fair value. Therefore, changes in unrealized gains and losses for
 those securities held at amortized cost are not reflected in the financial statements. Under GAAP, bonds
 classified as available for sale are recorded at fair value, and related changes in unrealized gains and losses
 are recorded as a component of equity, net of deferred Federal income taxes; and
- Deferred tax assets and liabilities are determined and admitted in accordance with SSAP No. 10R, Income Taxes – Revised, A Temporary Replacement of SSAP 10 ("SSAP 10R"). Changes in net deferred tax assets and liabilities are reflected as changes in surplus. Under GAAP, changes in such assets and liabilities are reflected in net income.

B. <u>Use of estimates in the preparation of the financial statements</u>

The preparation of these financial statements in conformity with Michigan Accounting Practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenues and expenses. Actual results could differ from those estimates.

C. Accounting policies

The Company applies the following significant accounting policies:

(1) Cash, cash equivalents and short-term investments

Cash and cash equivalents include all highly liquid instruments readily convertible to cash with a maturity of three months or less from the date of purchase. Short-term investments primarily consist of investments purchased with an original maturity of one year or less. The carrying amounts of cash and cash equivalents and short-term investments reported in the accompanying Statutory Statements of Assets approximate fair value. Drafts that have not been presented for payment and remain outstanding at the balance sheet date are reported as a liability in the Statutory Statements of Liabilities, Capital and Surplus.

(2) Bonds

Bonds, which include special deposits, are carried at amortized cost except for those bonds with an NAIC designation of 3 through 6 which are reported at the lower of amortized cost or fair value. The amount reported at fair value is not material to the financial statements. Bond premiums and discounts are amortized using the scientific interest method. When quoted prices in active markets for identical assets are available, the Company uses these quoted market prices to determine the fair value of bonds. This is used primarily for U.S. government securities. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, the Company estimates fair values using valuation methodologies based on available and observable market information or by using a matrix pricing model. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. The Company had no investments where fair value was determined using broker quotes or an internal analysis of financial performance and cash flow projections at December 31, 2011 and 2010. Bonds include all investments whose maturity is greater than one year when purchased.

The Company periodically reviews its bonds to determine whether a decline in fair value below the carrying value is other-than temporary. For bonds, other than loan-backed and structured securities, an other-than-temporary impairment shall be considered to have occurred if it is probable that the Company will be unable to collect all amounts due according to the contractual terms in effect at the date of acquisition. Yield-related impairments are deemed other-than-temporary when the Company intends to sell an investment at the reporting date before recovery of the cost of the investment. Declines deemed to be OTTI are recognized as realized capital losses.

For loan-backed and structured securities, the Company records other-than-temporary impairments when the fair value of the loan-backed or structured security is less than the amortized cost basis at the balance sheet date and (1) the Company intends to sell the investment, or (2) the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost basis, or (3) the Company does not expect to recover the entire amortized cost basis of the security, even if it does not intend to sell the security and has the intent and ability to hold. If it is determined an OTTI has occurred because of (1) or (2), the amount of the OTTI is equal to the difference between the amortized cost and the fair value of the security at the balance sheet date and this difference is recorded as a realized capital loss. If it is determined an OTTI has occurred because of (3), the amount of the OTTI is equal to the difference between the amortized cost and the present value of cash flows expected to be collected, discounted at the loan-backed or structured security's effective interest rate and this difference is also accounted for as a realized capital loss.

The Company analyzes all relevant facts and circumstances for each investment when performing its analysis to determine whether an OTTI impairment exists. Among the factors considered in evaluating whether a decline is other-than-temporary, management considers whether the decline in fair value results from a change in the quality of the investment security itself, whether the decline results from a downward movement in the market as a whole, the prospects for realizing the carrying value of the bond based on the investee's current and short-term prospects for recovery and other factors. The risks inherent in assessing the impairment of an investment include the risk that market factors may differ from our expectations and the risk that facts and circumstances factored into our assessment may change with the passage of time. Unexpected changes to market factors and circumstances that were not present in past reporting periods may result in a current period decision to sell securities that were not other-than-temporarily impaired in prior reporting periods.

(3) Securities lending

The Company engages in securities lending by lending certain debt securities from its investment portfolio to other institutions for short periods of time. Borrowers must post cash collateral in the amount of 102% to 105% of the fair value of the loaned securities. The fair value of the loaned securities is monitored on a daily basis, with additional collateral obtained or refunded as the fair value of the loan securities fluctuate. The collateral is retained and invested by a lending agent according to the Company's guidelines to generate additional investment income for the Company. Pursuant to SSAP No. 91R Revised, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* ("SSAP 91R"), collateral required under the Company's securities lending program is carried on the Company's Statutory Statements of Assets, Liabilities, Capital and Surplus at December 31, 2010 as both a receivable and payable. Also pursuant to SSAP 91R, if the collateral received from a counterparty is less than 100 percent at the reporting date, the difference between the actual collateral and 100 percent is nonadmitted. Collateral value is measured and compared to the loaned securities in aggregate by counterparty.

The Company did not have any loaned securities at December 31, 2011 and 2010.

(4) Premiums and amounts due and unpaid

The Company does not have any premium and amounts due and unpaid as a result of the Company's cessation of marketing.

Premium revenue for prepaid health care products is recognized as income in the month in which enrollees are entitled to health care services. Premiums collected before the effective period are reported as premiums received in advance. Premiums related to unexpired contractual coverage periods are reported as unearned premiums in the Statutory Statements of Liabilities, Capital and Surplus (refer to discussion of aggregate health policy reserves and related expenses below).

(5) Hospital and medical costs and claims adjustment expenses and related reserves

Hospital and medical costs for the years ended December 31, 2011 and 2010 consist of the effects of the claim reserve reductions due to the run-off of prior incurred claims. Claims unpaid include the Company's estimate of payments to be made on claims reported but not yet paid and for health care services rendered to enrollees but not yet reported to the Company as of the Statutory Statements of Assets, Liabilities, Capital and Surplus date. Such estimates are developed using actuarial principles and assumptions, which consider, among other things, historical and projected claim submission and processing patterns, medical cost trends, historical utilization of health care services, claim inventory levels, changes in membership and product mix, seasonality and other relevant factors. The Company reflects changes in estimates in hospital

and medical costs in the Statutory Statements of Revenue and Expenses in the period they are determined. Capitation costs, which are recorded in hospital and medical expenses in the Statutory Statements of Revenue and Expenses, represent contractual monthly fees paid to participating physicians and other medical providers for providing medical care, regardless of the medical services provided to the enrollee.

The Company uses the triangulation method to estimate reserves for claims incurred but not reported. The method of triangulation makes estimates of completion factors which are then applied to the total paid claims (net of coordination of benefits) to date for each incurral month. This provides an estimate of the total projected incurred claims and total amount outstanding or claims incurred but not reported (claims unpaid).

Claims adjustment expenses represent the costs incurred related to the claim settlement process such as costs to record, process and adjust claims. These expenses are included in the Company's management agreement with an affiliate described in Note 10.

(6) Aggregate health claim reserves

The reserve for future contingent benefits includes the estimated cost of services which will continue to be incurred after the Statutory Statements of Liabilities, Capital and Surplus date if the Company is obligated to pay for such services in accordance with contract provisions or regulatory requirements. These balances are recorded in aggregate health claim reserves in the Statutory Statements of Liabilities, Capital and Surplus and are estimated using a percentage of current hospital and medical costs, which is based on the Company's historical cost experience.

(7) Covered and uncovered expenses and related liabilities

Covered expenses and related liabilities represent costs for health care expenses for which a member is not responsible in the event of the insolvency of the Company. Uncovered expenses and related liabilities represent costs to the Company for health care services that are the obligation of the Company and for which a member may also be liable in the event of the Company's insolvency.

(8) Federal and state income taxes

In accordance with a written tax sharing agreement with an affiliate, the Company's current Federal and state income tax provisions are generally computed as if the Company were filing a separate Federal and state income tax return; current income tax benefits, including those resulting from net operating losses, are recognized to the extent realized in the consolidated return. Pursuant to this agreement, the Company has the enforceable right to recoup Federal and state income taxes paid in prior years in the event of future net losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to Federal and state income taxes.

Deferred income tax assets ("DTAs") and liabilities ("DTLs") represent the expected future tax consequences of temporary differences generated by statutory accounting as defined in Statement of SSAP No. 10R. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a balance sheet approach whereby statutory and tax basis balance sheets are compared. Current income tax recoverables include all current income taxes, including interest, reasonably expected to be recovered in a subsequent accounting period.

Pursuant to SSAP No. 10R, which is effective for 2009 annual statements and 2010 and 2011 interim and annual financial statements only, gross DTAs are first reduced by a statutory valuation allowance adjustment to an amount that is more likely than not to be realized ("adjusted gross DTAs"). Adjusted gross DTAs are then admitted in an amount equal to either:

- (A) The sum of (1) previously paid Federal income taxes which are expected to be recovered through loss carrybacks for existing temporary differences which reverse within a year and (2) the lesser of the amount of gross DTAs expected to be realized within one year of the balance sheet date after the application of (1) or ten percent of statutory capital and surplus and (3) the amount of gross DTAs, after the application of (1) and (2), that can be offset against existing gross DTLs; or
- (B) If a reporting entity, which is subject to risk-based capital ("RBC") requirements or which is required to file a RBC Report with its domiciliary state, exceeds certain risk-based capital thresholds after reflecting the adjusted gross DTAs as calculated in (A), the reporting entity may elect to admit a higher amount of adjusted gross DTAs. If elected by the reporting entity, adjusted gross DTAs may be admitted in an amount equal to the sum of (1) previously paid Federal income taxes which are expected to be recovered through loss carrybacks for existing temporary differences which reverse within a timeframe corresponding with Internal Revenue Code ("IRC") tax loss carryback provisions, not to exceed three years and (2) the lesser of the amount of gross DTAs expected to be realized within three years of the balance sheet date after the application of (1) or fifteen percent of statutory capital and surplus and (3) the amount of gross DTAs, after the application of (1) and (2), that can be offset against existing gross DTLs.

The Company met the RBC threshold necessary to admit a higher amount of adjusted gross DTAs and has admitted these amounts under option (B) above in 2011 and 2010.

Prior to the adoption of SSAP No. 10R, there was no statutory valuation allowance adjustment and DTAs were admitted in accordance with paragraph (A) above only. SSAP No. 101, *Income Taxes*, *A Replacement of SSAP No. 10R and SSAP No. 10* was adopted in 2011 and will become authoritative guidance for accounting and reporting of income taxes for statutory financial statements beginning January 1, 2012.

NAIC SAP requires that DTAs can only be admitted through loss carrybacks to the extent that the Company paid or was allocated taxes as a separate legal entity. In addition, DTAs that the Company expects to realize within either one year or three years of the balance sheet date or during a timeframe corresponding with the IRC tax loss carryback provisions, not to exceed three years, on a separate legal entity basis cannot be admitted if the Company projects a tax loss, even if the loss could offset taxable income of other members in the consolidated group.

Changes in DTAs and DTLs are recognized as a separate component of gains and losses in surplus ("Change in net deferred income tax") except to the extent allocated to changes in unrealized gains and losses and aggregate write-ins for special surplus funds. Changes in DTAs and DTLs allocated to unrealized gains and losses are netted against the related changes in unrealized gains and losses and are reported as "Change in net unrealized capital gains (losses)", also a separate component of gains and losses in surplus. Any increased amount of admitted assets and statutory surplus resulting from the election of paragraph (B) above (the additional deferred tax asset admitted amount) is reported separately as part of aggregate write-ins for special surplus funds in the Statutory Statements of Liabilities, Capital and Surplus and as aggregate write-ins for gains and losses in surplus in the Statutory Statements of Changes in Capital and Surplus.

State income tax expense is recorded in general administrative expenses on the Statutory Statements of Revenue and Expenses. The Company did not incur any state income tax expense (benefit) for the years ended December 31, 2011 and 2010. The Company's state income tax payable of \$1,801 at December 31, 2010, was included in general expenses due or accrued in the Statutory Statements of Liabilities, Capital and Surplus.

2. Accounting changes and corrections of errors

As discussed in Note 1.C., SSAP 101, *Income Taxes, A Replacement of SSAP No. 10R and SSAP No. 10* ("SSAP 101") was adopted in 2011 and will become authoritative guidance for accounting and reporting of income taxes beginning January 1, 2012. SSAP 101 will (1) restrict the ability to use the 3 years/15 percent of surplus admission rule to those reporting entities that meet a new modified RBC ratio threshold, (2) change the recognition threshold for recording tax contingency reserves from a probable liability standard to a more-likely-than-not liability standard, (3) require the disclosure of tax planning strategies that relate to reinsurance and (4) require consideration of reversal patterns of DTAs and DTLs in determining the extent to which DTLs could offset DTAs on the balance sheet. Based on the Company's initial analysis, the application of SSAP 101 is not expected to have a material impact on the Company's results of operations or its capital and surplus.

The Company did not have any corrections of errors in the years ending December 31, 2011 and 2010.

3. Business combinations and goodwill

The Company was not a part of any business combinations that involved the statutory purchase method, a statutory merger, or an impairment loss in the years ending December 31, 2011 and 2010.

4. Discontinued operations

The Company has withdrawn from the market effective December 31, 2007. The Company provided such information to the Michigan Office of Financial and Insurance Services on November 7, 2006 pursuant to M.C.L.A. Section 500.3712.

5. Investments

- A. The Company did not have any mortgage loans, including Mezzanine Real Estate Loans, at December 31, 2011 or 2010.
- B. The Company did not have any debt restructuring in the years ending December 31, 2011 and 2010.
- C. The Company did not have any reverse mortgages at December 31, 2011 or 2010.

D. Loan-Backed Securities

- (1) Prepayment assumptions for single class and multi-class mortgage backed/asset backed securities were obtained from industry market sources.
- (2) The Company had no OTTI losses during 2011 on loan-backed and structured securities in which the Company had the intent to sell or did not have the intent and ability to retain for a period of time sufficient to recover the amortized cost basis in accordance with SSAP No. 43R.

- (3) The Company had no recognized OTTI on loan-backed and structured securities held by the Company at December 31, 2011 or 2010.
- (4) The Company had no unrealized loss position on loan-backed and structured securities held by the Company at December 31, 2011.
- E. The Company did not have any repurchase agreements or securities lending transactions at December 31, 2011 or 2010.
- F. The Company did not have any real estate at December 31, 2011 or 2010.
- G. The Company did not have any low-income housing tax credits at December 31, 2011 or 2010.

6. Joint ventures, partnerships, and limited liability companies

The Company did not have any joint ventures, partnerships, or limited liability companies that exceeded 10% of its admitted assets at December 31, 2011 or 2010.

7. Investment income

There was no investment income due and accrued with amounts that are over 90 days old at December 31, 2011 or 2010.

8. Derivative instruments

The Company did not have any derivative instruments at December 31, 2011 or 2010.

9. Income taxes

A.1. The components of the net DTAs recognized in the Company's Statements of Assets, Liabilities, Capital and Surplus at December 31, 2011 and 2010 were as follows:

	De	ecember 31, 201	r 31, 2011				
	Ordinary	Capital	Total				
Gross DTAs	-	=	-				
Valuation allowance adjustment	_	-	-				
Adjusted gross DTAs	-	=	-

Less: DTAs nonadmitted	-	-	-				
Net admitted DTAs/DTLs	\$(6)	\$(268)	\$(274)				

A.2. The Company met the RBC threshold necessary to admit a higher amount of adjusted gross DTAs and has admitted these amounts in 2011 and 2010.

A.3. The amount of admitted gross DTAs admitted under each component of SSAP No. 10R were as follows:

	December 31, 2011			
	Ordinary	Capital	Total	
Admitted adjusted gross DTAs - one year: Paragraph 10.a., Federal income taxes that can be recovered				
Paragraph 10.b., lesser of: 1) Remaining adjusted gross DTAs expected to be realized within 1 year (10.b.i.)	-	<u>-</u>	- -	
2) 10% of surplus (10.b.ii.).	XXX	XXX	\$375,381

^{*}As reported on the statutory balance sheet for the most recently filed statement with the domiciliary state commissioner adjusted in accordance with SSAP 10R, paragraph 10.b.ii.

C.1. The provisions (benefit) for income taxes for the years ended December 31, 2011 and 2010 were as follows:

	Decem			
	2011 2010		Change	
Federal income tax expense on operations Federal income tax (benefit) on net capital gains	\$14,943 (2)	\$16,148 (2)	\$(1,205) -	
Federal income tax expense incurred	\$14,941	\$16,146	\$(1,205)	

B. There are no DTLs that were not recognized at December 31, 2011 or 2010.

C.2. The tax effects of temporary differences that gave rise to deferred tax assets and liabilities at December 31, 2011 and 2010 were as follows:

	Decem		
(in thousands)	2011	2010	Change
DTAs:			
Ordinary			
Claims unpaid	-	\$6	\$(6)
Ordinary DTAs	-	6	(6)
Nonadmitted Ordinary DTAs		-	
Admitted Ordinary DTAs	-	6	(6)
Capital			
Capital DTAs		-	-
Nonadmitted Capital DTAs	-	-	-
Admitted Capital DTAs	-	6	(6)
Admitted DTAs	-	6	(6)
DTLs:			
Ordinary			
Ordinary DTLs	-	-	-
Capital			
Investments	\$1,796	\$1,528	268
Capital DTLs	1,796	1,528	268
Total DTLs	1,796	1,528	268
Net admitted DTAs	\$(1,796)	\$(1,522)	\$(274)

C.3. The change in net deferred income taxes in 2011 is comprised of the following:

	Decen		
	2011	2010	Change
Gross DTAs Less: Gross DTLs	- \$(1.796)	\$6 (1.528)	\$(6) (268)
Net DTAs Less: Tax effect of unrealized gains (losses) Change in net deferred income tax	\$(1,796)	\$(1,522)	(274) - \$(274)

At December 31, 2010, there were no adjustments to the gross DTAs because of a change in circumstances. The valuation allowance adjustment to gross DTAs was \$0 for both December 31, 2010 and 2009.

D. The provision for Federal income taxes is different from that which would be obtained by applying the statutory Federal income tax rate to income before income taxes. The items causing this difference were as follows:

	rate December	31, 2010 tax rate
315,215 35	5.0% \$16,4	418 35.0%
- 315,215 35	· · · · · · · · · · · · · · · · · · ·	388 5.1% 306 40.1%
34,941 34	1.4% \$16, ²	146 34.4%
		560 5.7% 306 40.1%
	- \$15,215 35 \$14,941 34 274 (2,3 \$15,215 35.0% \$18,8 \$14,941 34.4% \$16,3 274 0.6% 2,6

E.1. At December 31, 2011, the Company had no net capital loss or net operating loss carryforwards for tax purposes.

- E.2. The amount of Federal income taxes incurred that is available for recoupment in the event of future net losses is \$14,943 and \$16,149 for the years ended December 31, 2011 and 2010, respectively.
- E.3. The Company did not report any deposits as admitted assets under IRC Section 6603 at December 31, 2011 and 2010.
- F.1. At December 31, 2011, the Company's Federal Income Tax Return was consolidated with the following entities:

Aetna Inc. - Parent Company

F.2. As explained in Note 1, the Company participates in a tax sharing agreement with its parent and affiliates.

10. Information concerning Parent, subsidiaries, affiliates, and other related parties

As of and for the years ending December 31, 2011 and 2010, the Company had the following significant transactions with affiliates:

The Company and Aetna Health Management, LLC ("AHM"), indirectly a wholly-owned subsidiary of Aetna, are parties to an administrative services agreement, under which AHM provides certain administrative services, including accounting and processing of premiums and claims. Under this agreement, the Company remits a percentage of its earned commercial, Medicaid and Medicare premium revenue, as applicable, to AHM as a fee, subject to an annual true-up mechanism as defined in the agreement. Under the agreement, this true-up is due to be settled with the affiliate by April 15th of the following contract year (which is January 1 to December 31 annually). The Company had no expenses under this agreement in 2011 and 2010 as it earned no premium revenue.

This agreement also provides for interest on all intercompany balances. The Company had no interest earned on amounts due from affiliates in 2011. Interest earned on amounts due from affiliates was \$91 in 2010. Interest incurred on amounts due to affiliates was \$21 in 2011 and \$20 in 2010. At December 31, 2011 and 2010, the Company reported \$(6,565) and \$(4,927), respectively, as amounts due to AHM related to this agreement. The terms of settlement require that these amounts be settled within 45 days after the end of the calendar quarter.

The Company is a party to an agreement which enables the Company to receive manufacturers' pharmacy rebates from AHM under which the Company remits 10% of its earned pharmaceutical rebates to AHM as a fee. The Company had no material earned pharmacy rebates in 2011 and 2010. The Company did not incur pharmaceutical rebate fees in 2011 and 2010. At December 31, 2011 and 2010, the Company did not have amounts due from AHM related to pharmaceutical rebates. The terms of settlement require that these amounts be settled within 45 days after the end of the calendar quarter.

The amounts reported on the Underwriting and Investment Exhibit, Part 3 represent the expenses incurred under the terms of the administrative agreement, allocated to the Company in accordance SSAP No. 70, *Allocation of Expenses*. SSAP No. 70 states "shared expenses, including expenses under the terms of a management contract, shall be apportioned to the entities incurring the expense as if the expense had been paid solely by the incurring entity. The apportionment shall be completed based upon specific identification to the entity incurring the expense. Where specific identification is not feasible, apportionment shall be based upon pertinent factors or ratios." The Company allocates these expenses based upon a percentage calculated using actual general and administrative expenses incurred by AHM.

The Company has coverage for certain litigation exposures (\$10,000,000 per claim and in the aggregate including defense costs) through an affiliated captive insurance company.

The Company has an insolvency agreement with Aetna Health Insurance Company ("AHIC"), a wholly-owned subsidiary of Aetna. This agreement provides that in the event that the Company ceases operations or becomes insolvent, AHIC will continue to pay benefits for any members confined as inpatients on the date of insolvency until their discharge. This agreement also provides that AHIC will continue benefits for any member until the end of the contract period for which premium has been paid, but for no longer than thirty-one days. AHIC will also make available to members, for a period of thirty-one days, replacement insurance policies.

As explained in Note 1, the Company participates in a tax sharing agreement with Aetna and Aetna's other subsidiaries. All Federal income tax receivables/payables were due from/due to Aetna.

The Company is a wholly-owned subsidiary of Aetna Health Holdings, LLC, whose ultimate parent is Aetna.

At December 31, 2011 and 2010, the Company did not hold any investments in any affiliate and did not own shares of any upstream intermediate of Aetna.

Amounts due to and due from affiliates shown on the accompanying Statutory Statements of Assets, Liabilities, Capital and Surplus include the Company's net receipts and disbursements processed by affiliates and management agreement transactions.

11. <u>Debt</u>

The Company did not have any debt at December 31, 2011 or 2010.

12. Retirement plans, deferred compensation, postemployment benefits and compensated absences and other postretirement benefit plans

The Company did not have a retirement plan, deferred compensation plan, or other postretirement benefit plan at December 31, 2011 or 2010.

- 13. Capital and surplus, shareholders' dividend restrictions and quasi-reorganizations
 - A. The Company had 5,000 shares of common stock with \$.01 par value authorized, with 1,000 shares issued and outstanding at December 31, 2011 and 2010.
 - B. The Company had 50 shares of preferred stock with \$.01 par value authorized, no shares issued and outstanding at December 31, 2011 and 2010.

C. <u>Dividend restrictions</u>

Shareholder dividends shall be declared or paid only from earned surplus, unless the Michigan Department approves the dividend prior to payment. Dividends not requiring prior approval are limited to the greater of 10% of the insured's surplus as regards policyholders as of December 31 of the immediately preceding year, or the net income, not including realized capital gains, for the 12 month period ending December of the immediately preceding year. Ordinary dividends are ultimately limited to earned surplus.

- D. The Company did not pay any dividends in 2011 and 2010. The Company did not receive any capital contributions in 2011 or 2010.
- E. At December 31, 2011, there was no portion of the Company's profits that may be paid as ordinary dividends to stockholders.
- F. There were no restrictions placed on the Company's surplus, including for whom the surplus was being held at December 31, 2011 or 2010, except as noted in Note 21.
- G. The Company did not hold any stock for any special purposes at December 31, 2011 or 2010.

- H. At December 31, 2011, there was no portion of unassigned funds (surplus) that was represented or reduced by unrealized gains and (losses).
- I. The Company did not have any special surplus funds, surplus notes, or quasi-reorganizations at December 31, 2011 or 2010, except for \$2 of aggregate write-ins for special surplus funds in 2010 resulting from additional deferred tax assets under SSAP 10R.

14. Contingencies

- A. The Company did not have any contingent commitments at December 31, 2011 or 2010.
- B. The Company did not have any contingent assessments at December 31, 2011 or 2010.
- C. The Company did not have any gain contingencies at December 31, 2011 or 2010.
- D. The Company did not have any claims related extra contractual obligation and bad faith losses stemming from lawsuits at December 31, 2011 or 2010.

E. All other contingencies

Litigation and regulatory proceedings

Out-of-Network Benefit Proceedings

The Company and certain of its affiliates (collectively, "we", "our" or "us") are named as a defendant in several purported class actions and individual lawsuits arising out of our practices related to the payment of claims for services rendered to our members by health care providers with whom we do not have a contract ("out-of-network providers"). Other major health insurers are also the subject of similar litigation or have settled similar litigation. Among other things, these lawsuits allege that we paid too little to our health plan members and/or providers for these services, among other reasons, because of our use of data provided by Ingenix, Inc., a subsidiary of one of our competitors ("Ingenix").

Various plaintiffs who are health care providers or medical associations seek to represent nationwide classes of out-of-network providers who provided services to our members during the period from 2001 to the present. Various plaintiffs who are members in our health plans seek to represent nationwide classes of our members who received services from out-of-network providers during the period from 2001 to the present. Taken together, these lawsuits allege that we violated state law, the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), the Racketeer Influenced and Corrupt Organizations Act and Federal antitrust laws, either acting alone or in concert with our competitors. The purported classes seek reimbursement of all unpaid benefits, recalculation and repayment of deductible and coinsurance amounts, unspecified damages and treble damages, statutory penalties, injunctive and declaratory relief, plus interest, costs and attorneys' fees, and seek to disqualify us from acting as a fiduciary of any benefit plan that is subject to ERISA. Individual lawsuits that generally contain similar allegations and seek similar relief have been brought by a health plan member and by out-of-network providers.

The first class action case was commenced on July 30, 2007. The Federal Judicial Panel on Multi-District Litigation (the "MDL Panel") has consolidated these class action cases in the U.S. District Court for the District of New Jersey under the caption *In re: Aetna UCR Litigation*, MDL No. 2020 ("MDL 2020"). In addition, the MDL Panel has transferred the individual lawsuits to MDL 2020. On May 9, 2011, the New Jersey District Court dismissed the physician plaintiffs from MDL 2020 without prejudice. The New Jersey District Court's action followed a ruling by the United States District Court for the Southern District of Florida (the "Florida District Court") that the physician plaintiffs were enjoined from participating in MDL 202 due to a prior settlement and release. The physician plaintiffs have attempted to appeal the Florida District Court's ruling to the United States Court of Appeals for the Eleventh Circuit.

Discovery is substantially complete in MDL 2020, several motions are pending, and briefing on class certification has been completed. The court has not set a trial date or a timetable for deciding class certification. We intend to vigorously defend ourselves against the claims brought in these cases.

We also have received subpoenas and/or requests for documents and other information from, and have been investigated by, attorneys general and other state and/or Federal regulators, legislators and agencies relating to our out-of-network benefit payment practices. It is reasonably possible that others could initiate additional litigation or additional regulatory action against us with respect to our out-of-network benefit payment practices.

Other Litigation and Regulatory Proceedings

In addition, our operations, current and past business practices, current and past contracts, and accounts and other books and records are subject to routine, regular and special investigations, audits, examinations and reviews by, and from time to time we receive subpoenas and other requests for information from the Centers for Medicare and Medicaid Services ("CMS"), the U.S. Department of Health and Human Services, various state insurance and health care regulatory authorities, state attorneys general, the Center for Consumer Information and Insurance Oversight, the Office of the Inspector General, the Office of Personnel Management, committees, subcommittees and members of the U.S. Congress, the U.S. Department of Justice, U.S. attorneys and other

state and Federal governmental authorities. These government actions include inquiries by, and testimony before, certain members, committees and subcommittees of the U.S. Congress regarding certain of our current and past business practices, including our overall claims processing and payment practices, our business practices with respect to our small group products, student health products or individual customers (such as market withdrawals, rating information, premium increases and medical benefit ratios), executive compensation matters and travel and entertainment expenses, in connection with their consideration of health care reform measures, as well as the investigations by, and subpoenas and requests from, attorneys general and others described above under "Out-of-Network Benefit Proceedings." There also continues to be heightened review by regulatory authorities of and increased litigation regarding the health care and related benefits industry's business and reporting practices, including premium rate increases, utilization management, complaint and grievance processing, information privacy, provider network structure (including the use of performance-based networks), delegated arrangements, rescission of insurance coverage, limited benefit health products, student health products, pharmacy benefit management practices, sales practices, and claim payment practices (including payments to out-of-network providers). As a leading national health care benefits company, we regularly are the subject of such government actions. These government actions may prevent or delay us from implementing planned premium rate increases and may result, and have resulted, in restrictions on our business, changes to or clarifications of our business practices, retroactive adjustments to premiums, refunds or other payments to members, assessments of damages, civil or criminal fines or penalties, or other sanctions, including the possible loss of licensure or suspension from participation in government programs.

Estimating the probable losses or a range of probable losses resulting from litigation, government actions and other legal proceedings is inherently difficult and requires an extensive degree of judgment, particularly where the matters involve indeterminate claims for monetary damages, may involve fines, penalties or punitive damages that are discretionary in amount, involve a large number of claimants or regulatory authorities, represent a change in regulatory policy, present novel legal theories, are in the early stages of the proceedings, are subject to appeal or could result in a change in business practices. In addition, because most legal proceedings are resolved over long periods of time, potential losses are subject to change due to, among other things, new developments, changes in litigation strategy, the outcome of intermediate procedural and substantive rulings and other parties' settlement posture and their evaluation of the strength or weakness of their case against us. We are currently unable to predict the ultimate outcome of, or reasonably estimate the losses or a range of losses resulting from, the matters described above, and it is reasonably possible that their outcome could be material to us.

15. Leases

The Company did not have any material lease obligations at December 31, 2011 or 2010.

16. <u>Information about financial instruments with off-balance sheet risk and financial instruments with concentrations of credit risk</u>

The Company did not have any financial instruments with off-balance sheet risk or financial instruments with concentrations of credit risk at December 31, 2011 or 2010.

17. Sale, transfer and servicing of financial assets and extinguishments of liabilities

A. Transfers of receivables reported as sales

The Company did not have any transfers of receivables as sales for the years ending December 31, 2011 and 2010.

- B. Transfer and servicing of financial assets
 - (1) Not applicable.
 - (2) The Company did not have any loaned securities at December 31, 2011.
 - (3) Not applicable.
- C. Wash sales

The Company did not have any wash sales for the years ending December 31, 2011 or 2010.

18. Gain or loss to the HMO from uninsured plans and the uninsured portion of partially insured plans

The Company did not serve as an Administrative Services Only or as an Administrative Services Contract plan administrator for uninsured accident and health plans or the uninsured portion of partially insured plans for the years ended December 31, 2011 and 2010.

19. Direct premium written/produced by managing general agents/third party administrators

The Company did not have any direct premiums written through/produced by managing general agents or third party administrators for the years ended December 31, 2011 and 2010.

20. Fair value measurements

The Company had no material assets or liabilities measured and reported at fair value at December 31, 2011 or 2010.

21. Other items

A. Extraordinary items

The Company did not have any extraordinary items for the years ended December 31, 2011 and 2010.

B. <u>Troubled debt restructuring: debtors</u>

The Company did not have any troubled debt restructuring in the years ended December 31, 2011 and 2010.

C. Other disclosures

(1) Minimum capital and surplus

Under the laws of the State of Michigan, for a health maintenance organization that contracts or employs providers in numbers sufficient to provide 90% of the health maintenance organization's benefit payout, minimum capital and surplus is the greatest of the following: 1) \$1,500,000, 2) four percent of the health maintenance organization's subscription revenue, or 3) three months' uncovered expenditures. At December 31, 2011 and 2010, the Company's capital and surplus exceeded all such requirements.

The NAIC and the State of Michigan adopted RBC standards for health organizations, including HMOs, that are designed to identify weakly capitalized companies by comparing each company's adjusted capital and surplus to its required capital and surplus (the "RBC Ratio"). The RBC Ratio is designed to reflect the risk profile of the company. Within certain ratio ranges, regulators have increasing authority to take action as the RBC Ratio decreases. There are four levels of regulatory action, ranging from requiring insurers to submit a comprehensive plan to the state insurance commissioner to requiring the state insurance commissioner to place the insurer under regulatory control. At December 31, 2011 and 2010, the Company had capital and surplus that exceeded the highest threshold specified by the RBC rules.

(2) Patient Protection and Affordable Care Act

In March 2010, President Obama signed into law the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, "Health Care Reform"), which makes broad-based changes to the U.S. health care system which could significantly affect the U.S. economy and has and will significantly impact Aetna's business operations and financial results, including Aetna's pricing and medical benefit ratios. Health Care Reform presents Aetna with new business opportunities, but also with new financial and other challenges. It is reasonably possible that Health Care Reform, in the aggregate, could have a material adverse effect on Aetna's business operations and financial results. The Company continues to evaluate the provisions of Health Care Reform and the impact it will have on its business operations and financial results.

- D. The Company did not have any receivable balances due from insurance agents or brokers, and it does not have uninsured plans or retrospectively rated contracts at December 31, 2011 or 2010. Therefore, there were no balances for assets that would be reasonably possible to be uncollectible.
- E. The Company did not have any business interruption insurance recoveries for the years ending December 31, 2011 or 2010.
- F. The Company did not have any state transferable tax credits for the years ending December 31, 2011 or 2010.
- G. The Company did not have any subprime mortgage related risk exposures at December 31, 2011 or 2010.
- H. The Company did not have any retained assets at December 31, 2011 or 2010.

22. Events subsequent

Subsequent events have been considered through February 24, 2012 for the statutory statement issued on March 1, 2012. The Company had no known reportable subsequent events.

23. Reinsurance

The Company did not have any reinsurance recoverables in dispute, reinsurance assumed, uncollectible reinsurance, commutation of ceded reinsurance, or retroactive reinsurance at December 31, 2011 or 2010.

24. Retrospectively rated contracts and contracts subject to redetermination

The Company did not have any retrospectively rated contracts or contracts subject to redetermination in 2011 or 2010.

25. Change in claims unpaid, unpaid claims adjustment expense, and aggregate health claim reserves

The following table shows the components of the change in claims unpaid, unpaid claims adjustment expense and aggregate health claim reserves for the years ending December 31, 2011 and 2010.

(in thousands)	2011	2010
Balance, January 1 Health care receivable	\$1 -	\$3 -
Balance, January 1, net of health care receivable	1	3
Incurred related to: Current year Prior years Total incurred		(6) (6)
Paid related to: Current year Prior years Total paid	- - -	(4) (4)
Balance, December 31, net of health care receivable Health care receivable	<u>-</u>	1 -
Balance, December 31	_	\$1

The Company had no significant development of prior period health care cost estimates in 2011 or 2010. The Company excluded the impact of the change in health care receivables related to pharmacy rebates from the above roll-forward to conform to NAIC Annual Statement presentation.

Net coordination of benefits are implicit in the claims incurred but not reported calculation and could not be specifically identified.

26. Intercompany pooling arrangements

The Company did not have any intercompany pooling arrangements at December 31, 2011 or 2010.

27. Structured settlements

Not applicable to health entities.

28. Health care receivables

A. Pharmaceutical rebates

The Company receives pharmaceutical rebates through an agreement with AHM. AHM has contractual agreements with pharmaceutical companies for rebates, which cover the Company's membership as well as the membership of other Aetna affiliates. The Company receives those rebates from AHM that relate to the Company's membership. The Company estimates pharmaceutical rebate receivables based upon the historical payment trends, actual utilization and other variables. Actual rebates collected are applied to the collection periods below, using a first in first out methodology. At December 31, 2011 and 2010, the Company did not have any pharmaceutical rebate receivables.

B Risk sharing receivables

The Company did not have any admitted risk sharing receivables at December 31, 2011 or 2010.

29. Participating policies

The Company did not have any participating policies at December 31, 2011 or 2010.

Statement as of December 31, 2011 of the Aetna Health Inc. (a Michigan corporation)

30. Premium deficiency reserves

December 31, 2011

- Liability carried for premium deficiency reserves
 Date of the most recent evaluation of this liability
- 3. Was anticipated investment income utilized in the calculation?

\$0 12/31/2011 Yes

31. Anticipated salvage and subrogation

See discussion of hospital and medical costs and claims adjustment expenses and related reserves in Note 1.
